THE HEART OF WOMAN.

Mong icy hills and tropic groves, And where the dark barbarian roves, In gilded mansions, and where moves, Midst poverty, forms human, There lives a gem that glitters through The clods that mortal frames imbue, As bright as sunshine on the dew-It is the heart of woman.

Her heart is Love's own chalice bright, In which its essence, darting light, Reposes deep, to awe the night That spreads existence dimly : As high with beaming Love 'tis filled, And with sweet purity instilled-It rises nearer heaven, unchilled By hates that hover grimly.

'Tis purest 'mong domestic scenes; For far more precious than a queen's Is that dear heart that ever gleams, For home the joys that make it. Proud, tempted pleasures, where grand strains Hold revel with pervading pains, Charm not that heart, while home remains, 'Twill bless and ne'er forsake it.

A treasure 'tis to toiling man, And hopeful, soothing, when a ban O,er fortune comes, and ev'ry plan Of life's wild hope is broken : Then like a ray from Heaven it burns, And checking sorrow overturns The shades that lure despair, as yearns The soul for Love's best token.

Man's heart is like a stalwart tree. By Nature moulded strong as be The oak or elm, that bove the lea Live, die, although not human. The cold winds sweep, and leaves decline, Yet round the trunk and branches twine The tendrils of a fadeless vine-How like the heart of woman!

OUR IDOL.

Close the door lightly,

Bridle the breath, Our little earth angel Is talking with death. Gently he woos her, She wishes to stay; His arm is about her-Music comes floating Down from the dome Angels are chanting The sweet welcome home. Come, stricken weeper! Come to the bed: Gaze on the sleeper-Our idol is dead! Smooth out the ringlets; Close the blue eye-No wonder such beauty Was claimed in the sky; Cross the hands gently O'er the white breast So like a wild spirit

Straved from the blast.

Be 'mid the sweet flowers.

MPLE FOR THE YOUNG.-When Gen. Washngton assigned to meet Congress at noon, he never failed to be passing the door of the Hall while the clock was striking twelve. Whether his guests were present or not, he always dined at four. Not unfrequently new members of Congress, who were invited to dine with him, delayed until dinner was half over and be would then remark, "Gentlemen, we are punctual here. My cook never asks whether the company has arrived. but whether the hour has." When he visited Boston, in 1789, he appointed eight o'clock a. M., as the hour when he should set out for Salem; and while the old South clock was striking eight, he was mounting his horse. The company of cavalry which volunteered to escort him, were parading in Tremont street after his departure, and it was not until the General reached Charles River bridge, that they overtook him. On the arrival of the corps, the General, with perfect good nature, said, "Major thought you had been too long in my family, not to know when it was eight o'clock." Capt. Pease, the father of the stage establishment in the United States. had a beautiful pair of horses which he wished to dispose of to the General. whom he knew to be an excellent judge of horses. The General appointed five o'clock in the morning to examine them: But the Captain did not arrive until quarter past five, when he was told by the groom that the General was there at five, and was then fulfilling other engagements. Pease, much mortified, was pickpockets lately from New York, obliged to wait a week for another op portunity, merely for delaying the first since, have been convicted and held for quarter of an hour.

A TIPPERARY TURK.

During the operations of the allies in the Crimea, it was resolved to carry the water in from a beautiful spring of the finest Croton to the camp. Leather pipe or hose was employed, which was laid on the ground. One morning, while the water was being supplied, the minaret sounded to prayer, and one of the Turkish soldiers immediately went on his knees to praise Allah. Unfortunately he went down upon the hose, and his weight suddenly stopped the current of that "first of elements," as Pindar calls

"Get up." cried an English soldier. "Voulez vous avez, la bonte, mon cher. Monsieur la Turque," cried a Frenchman, with his native politeness to 'get up."

"That ain't the way to make the Turk move." cried another "This is the dodge." So saying, he knocked the turban off. Still the pious Musselman went on with his devotion.

"I'll make him stir his stumps," said ano her Englishman, giving him a remarkable hard kick. To the wonder of all, still the unturbaned, well-kicked follower of the prophet went on praying as though he was a forty-horse parson.

"Hoot awa, mon-I'll show you how we serve obstinate folks at auld Reekie," quietly observed a Scotchman-he was, however, prevented, for the Turk, having finished his "Allah vis en allah," rose and began to take off his coatthen to roll up his sleeves, and then to put himself in the most approved boxing attitude, a la Yankee Sullivan. He then advanced in true Tom Hyer style to the Englishman, who had kicked him in the lumber region.

"A ring ! a ring !" shouted the soldiers and sailors, perfectly astonished to see a Turk such an adept in the fistic art.

The Englishman, nothing loth to have a bit of fun with the Turk of such a John Bull state of mind, set to work, but found he had met his master. In five minutes he had received his quantum sufficit. As the Turk coolly replaced his coat and turban, he turned round and said to the admiring bystanders, in the pure brogue :

"Bad luck to ve. ye spalpeens; when ver'e afther kickin' a Turk. I'd advise ve. the next time, to be shure he's not an Irishman !"

The mystery was solved—the Turk was a Tipperary man.

Touching Incident of the WAR. After the battle at Bean Station, East Tennessee, the rebels were guilty of all manner of indignity toward the slain. They stripped their bodies, and shot all persons who came near the battle-field to show any attention to the dead. The body of a little drummer boy was left naked and exposed. Near by, in a humble house, there were two little girls, the eldest but sixteen, who resolved to give the body a decent burial. They took the night for their task. With hammer and nails in hand, and boards on their shoulders, they sought the place where the body of the dead drummer boy lay. From their own scanty wardrobe. they clothed the body for the grave. With their own hands they made a rude coffin, into which they reverently put the dead boy. They dug the grave, and lowered the body into it and covered it over. The noise of the hammering brought some of the rebels to the spot The sight was too much for them. The stillness of the night—the story so eloquently told by the heroic labors of the little girls. Nos a word was spoken, no one interfered, and when the sacred rites of burial were performed, all sepatated, and the little drummer boy sleeps undisturbed in his grave on the battle field. Such tenderness and heroism de serve to run along the line of coming generations with the story of the woman who broke the alabaster box on the feet of the Savior, and with her who of her penury cast her two mites into the treasury.

January, speaks of a recent visit from Heenan in these terms: We were sorry to find that he was still suffering from severe illness. He has been so much reduced in weight that he now barely weighs 175 pounds. He declares that, beyond the first two or three rounds of his match with King, he has no recollection whatever of anything that took place, nor can he in any way account for the extraordinary falling off but I assure you I am quite ignorant in his fighting. He felt on entering the ring fit to fight for his life, and he looked upon victory as a foregone conclusion; but in a few minutes a giddiness came over him for which he cannot acnothing at all; and he declares he has never felt the same man since. His looks on Friday certainly bore out his statement as to his health, and it will

to get himself round. Heenan was expecting certain benefits n London and Liverpool, from the proseeds of which he expected to take a trip to a warmer climate for the benefit of his health.

No RECONSTRUCTION ON SLAVERY .- At recent New England dinner, James T. Brady took occasion to say: "I say to those gentlemen for whom within the feeble limits of my capacity I have made all the sacrifices that belong to a young life or an old experience, all the politicians who tell you that there never can come a time when there can be a reconstruction of this Union not founded on slavery are telling you a lie. We thought we could make any sacrifice to retain that the time of day. nstitution so long as it could continue consistently with the judgment of men : but I say for myself here and hereafter. that I never mean to fight that battle the Universe has terminated it, and the rebellion, terrible as it is, costly in life in blood, and in treasure, is, in my humble and reverent conception, one of the mysterious ways in which the justice of God is being worked out against the prejudices and falsehood of men.

FEMALE TYPE-SETTERS.—The subject of employing female compositors having been somewhat discussed by Lislie Les ter, of the Pacific Monthly, the editor of

the Napa Register thus remarks : We have two daughters, and intend they live to a proper age, to make hem both accomplished compositors. A liberal course of types will teach them how to murder French or torture a pi ano. If they have any brains they will be proud of both being independent and we can restore them to the customary employment of miss-dom-working red worsted dogs, chattering nonsense and spoiling water-colors.

The dying man said he would and accordingly a reverend gentleman few common place remarks, the minister propounded in sepulchral tones the following question; "Do you know who fort, raised himself partially in bed, and after fiercely eyeing his holy visitor for an instant, exclaimed: "This is a devilish pretty time to ask connandrums !" He then fell back and expired. The minister left in disgnst.

ARTEMUS Ward thus gives his idea of THE Washington correspondent of the Chicago Tribune, relates the following anecdote:

Joe, as it is pretty well known, was once at a dinner party placed before a haunch of venison, and requested to carve it.

THE CONTRABAND SOLDIERS .- It is amusing, writes a correspondent from Point Isabel, Texas, to see how completely nonplussed some of our privates are in possession of their money. Some never had a dime in their lives to call their own, and could not distinguish between a one, two, or five dollar greenback. One fellow paid ten dollars for a watch, and his Lieutenant noticing it, inquired

"Lor' Cap'n," replied the darkey (they call every officer Cap'n), "I dunno; d'ye 'spose I can tell?"

"Why, what did you waste your mon again. It is ended. The great God of ey for a watch, then?" asked the Lieutenant, whereupon the darkey broke into a loud laugh, as he said, "Why, Cap'n, I bought it so dey couldn't keep dis chile on guard over two hours."

BUCKWHEAT CARES .- Sitting in a sa loon, Sunday evening, waiting for church time, we heard a stove-sharp relate this story of a Marysville lawyer : He went to San Francisco by boat; stopped at Sacramento, and struck buckwheat cakes with sausage gravy; ate six sucessive plates of them, paid the bill, and took boat again. A week later, came back. Carpet- sack in hand, found his way to the same restaurant. A waiter started immediately, and without any order. many things better worth knowing than sung out : "Buckwheat cakes and sausage gravy for six! that d-d old son of a gun has got back!" They didn't fool the lawyer any, though; he took useful; if unfortunately they have not, the lot, and went away a sadder and a gravier man,-Humboldt Register.

HUMAN MACHINERY,-Very few me chanics are aware how much machinery there is, in constant action, in their own bodies. Says a popular writer, not only are there hinges and joints in bones, but there are valves in the veins, a force pump in the heart, and curiosities in other parts of the body equally striking. One of the muscles forms an actual pulley. The bones which support the body are made precisely in the form which has been ascertained, by calculation and experiments, to be the strongest pillars and supporting columnsthat of hollow cylinders.

PLUMAS COUNTY MINES.

We have received, from a subscriber at San Francisco, a request to give an county.

Anticipating the need of information. on this point, we have been collecting, for some time past, items, relative to that interest in the county, and shall from time to time, hereafter publish them.

The geological formation of Plumas county presents the two grand divisions, noticeable in different parts of the State, the slate and the granite. In both of these, quartz veins exist, while the presence of quartz gravel in the soil, and volcanic evidences, prove that Plumas, like the rest of the Mountain counties, has been subject to great convulsions and changes. The beds of old streams lie under our highest mountains; and the immense amount of smooth, round pebbles and boulders clearly indicate the lengthened action and attrition of water

at some remote period. In every section of the county, metaliferous quartz veins are to be found, both in the slate and granite. But little however, has been done of a scientific character, to prospect, or test their value, save in a few isolated points : Eureka, Gold Lake, Crescent Mills, at Indian Valley : Round Valley, Genesee, and at

Argentine. The Eureka District, including the Eureka, Mammoth, Washington, Gold Mountain, Elizabeth, and other companies, has been more thoroughly, prospected, than any other section of the county, for quartz. The Eureka and Mammoth companies have been working their ledges for ten or twelve years, and large dividends have been declared. The other companies have not been working for a number of years, and failed at the very outset, from lack of judgment, perhaps, as much as anything else. Large amounts were expended in procuring machinery, for crushing. The high price of labor, the immense expenditures necessary to commence, wearied the locators, deple-struggle, now existing. ted their pockets in the shape of assessments, and to-day, there are hundreds in the county, who declare that there is no having received a severe lesson in '52, on the subject. The property of these com-

The range of the quartz at Eureka. leads us to suppose that the veins at Gold Lake and Round V'y, are the same strata; at anyrate, their general cousre and dips are the same. The Eureka ledge pays well. The Crescent, (formerly known as Blood & Pulcifer's). pays richly. The Round Valley Co., has paid, under the management of E. W. Judkins. It remunerated the workmen handsomely, although the gold (as in other mills), was not all saved, by, from 30 to 40 per cent. After the sale by Judkins, the affairs were mismanaged, the hands were bosses, and the company getting behind, were overthrown. If, however the matters of that ledge were managed in a business like manner, there can be no doubt but that it would pay as well as any ledge in the county. With the exception of the aforementioned localities, the county is unprospected; although prospecting is rapidly going on. Copper ore of the richest quality, is known to exist in several

We propose, hereafter, to publish a detailed statement of every place in the county, where prospecting is going on. It is the commencement of the combination between labor and capital, when quartz mines are to be worked. And en once in successful operation, promises stability, wealth and prosperity

THE NEW COUNTY OF LASSEN.

We received a letter a few days since from Hon, R. A. Clark, our Assemblyman at Sucramento, which informed us of the passage of the Lassen County Bill; and it only awaits the signature of the Gov. to become a law. We hope. to be able to publish the Bill in full in our next issue. From what little knowledge we have of it at present, we should judge that it would work "more hardship" to the inhabitants of the section which is embraced in the limits of the the new County, than it can to Plumas. outline of quartz mining in Plumas The Boundaries of the county are such as to include all of Long and Honey Lake Valleys, and the Mountain Meadows. It also apportions to Plumas the sum of \$2.500 for their share of the county indebtedness, \$1,000 to be paid in cash, on or before the 1st day of January 1865, and \$1,500, on or before the 1st day of January 1866. It requires all records now on file in this Co-, to be transcribed in books, to be furnished by the new county. The County Judge's salary is fixed at \$800 a year; District Attorney \$400. Taxes cannot be levied exceeding \$2.50 on each \$100 worth of taxable property. It also appoints three Commissioners, who are anthorized to appoint election precincts, call an election &c.

The location of the County Seat is to be decided by the voters at their first general election ; Susanville, Janesville and Millville, all aspire to that honor.

SACRAMENTO CORRESPONDENCE.

SACRAMENTO March 21st, 1864. DEAR UNION :- The clouds have at last burst, and the genial drops of rain given the grass a brighter green, and make the flowers bloom more radiantly. Whether it will continue to rain is a question of "quin sabe." Let us be thankful for what we get and not look 'a gift horse in the mouth."

Hossefros, one of the San Francisco fire boys died yesterday of consumption. His funeral was a large one, and generally attended by civic and military societies, the firemen turned out largely. George was a good boy, and one of the most jovial fellows in the circle of Brad's acquantances,-but he has made his last run, and will no more call the 'b'hoys'

to duty. The death of Starr King, has set men to enquiring, "who is worthy of the succession" in his pulpit. On dit has it, and preparing to work their claims, but the man of many and pleasant adjectives, they never were practically in operation | will be hailed upon this coast, as one | White became crazy from exhaustion.

The Senate have passed the Lassen Co., Bill, and all that it now lacks of being a law is the signature of the Governor. He will sign it, and probably remoney to be made in quartz mining, turn it to-day Then may Honey Lake go on her way rejoicing in the panoply of fulfilled hope, and with all the dignity of young countyhood, may her taxes panies has been gradually absorbed by crease, and her officers he honest is capitalists, until but few of the original the wish of Brad. The bill makes the sulary of District Attorney \$400 : and owners have any interest in those mines. County Judge \$800. Other officers get brave His time had come, and he died the same fees as Plumas officials. Unly think of purchasing legal talent at \$400 to White, an instant before the fatal a year. For County going into church." Judge there are but two applicants John S. Ward, and I. J. Harvey, Ward, I believe, has emphatically declined serving the "Peeps" at \$800 a year: and from present appearances Harvey has the inside track, and will probably be appointed.

No more upon the Eastern Slope will be heard the mut ered curse of Plumas county; no more will the sovereigns of Honey Lake curse the line that placed them within its boundaries. The Territory and the State partisans will lie down like the lion and the lamb sculptural memory, the calf and the sucking, the grascutus and the governor, will feed off of the same pasture and a little child shall lead them. Brad hails the birth of Lassen whose future he hopes may be prosperous, and that her Union majority may increase from year to year, world without end, amen.

A tew of the fixers of the tricks are in town. Some of the San Francisco chaps are around, and the list of candidates for delegates and electors is rapidly increasing. Yuba county, recommended Cunningham; then Snyder's friends sought to put him forward, and the quinceconse was that nobody got the vote. Butte has unanimously recommended Major Bidwell; Plumas has also a name presented for an elector. I believe, Sacramento has two, Sierra ene, San Francisco a dozen or more, and so on to the end of the chapter. Randall of the Appeal wants to go, but whether he can make the riffle or not, is the question.

The Bill for the relief of Bradford has been indefinitely postponed, and sleeps beyond the hope of resurection. Clark and Smith fought for it like men, but it was no use, the Solons had on a fit of economy, and so poor Buly went over board without much ceremony

Brad has other pusiness of importance to attend to, and must close

March 8, 1864. DEAR MRS. PERRY :- Dr. Smeathman left here on an excursion to the northeast country about three weeks ago, in company with Samuel Thompson and in Butte and Shata, and we hope that Fred White. After visiting Surprise he will be with us in April. Valley, 100 miles distant, they pushed to the north 60 miles further. This section of Nevada has seldom if ever been visited by the whites. The Indians are introduced by Mr. Clark of Plumas counvery dangerous. So soon as the parties became aware of this they concluded to return, being poorly armed, having but one dragoon revolver among the three \$5,000. The Committee on Claims re-This was entirely the Doctor's fault, as ported against the bill on the ground they could have had any number of good that it should be a county, instead of a fire-arms. He always labored under the State charge. Mr. Clark had written erroneous impression that in case of trouble with the Indians he could do more by Masonic signs and moral suasion than by bullets.

On the morning after concluding to come in, they were attacked, but managed to elude the Indians for that day and night. The next morning they hal ted at sunrise to prepare breakfast. After packing up they had gone but a few hundred yards when they were again fired upon by a large number of Indians. The foremost man, Thompson, received drop fatness on the land. Bullets and arrows were flying thick and fast, and a bullet from a rifle struck the Doctor, knocking him from his horse and wounding him mortally. Poor Dr. Smeathman, he is no more! It is some little consolation to his friends to know that he acted coolly and died like a brave man. The other men were forced to fly for lifethey had no time to carry him away. Thompson, as brave and discreet a man as I ever knew, did al! in his power to save the Doctor, but it was of no use They were hotly pursued for two days to be. and nights, having during all this time but one drink of water, and nothing to eat but the heart of the animal Thompthat Father Bellows will succeed, and son rode, which he was forced to kill in order to enetain life On Saturday whose eloquence and energy has poured and Thompson was forced to leave him the balm of comfort into the wounds of and push ahead to Rabbit Hole Station. thousands of our wounded in the great on the Honey Lake road. I intended to notify your mother of this by express; but Mr. Case, who has the Doctor's busi ness in charge, will do it. Anything that lies within my power to do, in reudering assistance to your mother in business or other matters, will heartily be done. I trust you will take this terrible news as calmly as possible, and accept the sympathy of a friend, who will hundred. deeply mourn with you the loss of so honorable a friend.

C. L. PERKINS. Yours, truly, Too LATE .- "Olive Branch" of Susan ville, has forwarded us a letter, dated March 7th, which arrived here on the 22nd inst. It was just fifteen days making the trip, and considering Susanville to be distant from Quincy 45 miles any of our readers can reckon up the rate of speed, per hour, which the letter has accomplished during that time. En closed in the letter was, "Bingen on the Rhine," and a short original article which may appear in our next. "Olive Branch' has our thanks for the good will shown

out his remarks and commenced reading them. As his voice could not be heard but a short distance, a member asked that the Clerk should read them. Mr. Clark declined, and the consequence was that not a dozen heard his arguments for the bill which, judging from what little I could catch, were very strong. The Committee stating that there was no precedent for such action, Judge Walker reminded them of the case of Frank who was voted \$2,500, which was precisely parallel. Attempts to pass the bill at \$2,000 and even \$1,000 failed, and it was indefinitely postponed .- Cor. Ma-

SAN FRANCISCO.

Established in 1854, for the permanent Cure of all Private and Chronic Diseases, and the suppression of Quackery. Attending and Resident Physician

L. J. CZAPKAY, M. D. Late in the Hungarian Revolutionary War: Chief Physician to the 20th Regiment of Honveds, Chief Surgeon to the Military Hospital of Pesth, Hungary, and late Lecturer on Diseases of Genito Urinary organs and diseases of Women and Children, and Honorary Member of the Philadelphia College of Medicine.

Particular attention paid to the treatment of Disc culiar to Women and Children.

Office Hours—From 9 A. M. to 9 P. M. Communication strictly confidential. Permanent cure guaranteed or no pay Consultation by letter or otherwise, free.

DR. I. J. CZAPKAY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he constitues to be cot sulted at his institute for the cure of all forms of Private Diseases—such as "yphilis, Gonorrhoea necturnal emissions, and all the consequences of self-abure. In the first stages of syphilitic or Gonorrhoeal Diseases—he guarantees a cure in a few days, without inconvenience to the patient or hindrance to his business. When a patient by neglect or improper treatment, has developed the secondary symptoms of ayphilia, cuch as bubbes or palutal swellings on the groins, or ulcers in the throat or nose, which if not sheeked destroy the soft parts and cause the bones to mortify, separate and come away, leaving the sufferer an object hideous to behold, or when he has painful swellings on the bones, or when his constitution is injured so as to predispose to consumption or other constitutional disease, the doctor guarantees a cure or asks no compensation.

In rheumatism, chronic or acute, dysentery or diarrhoea, he has safe and effectual remedies For the treatment of the consequences of self abuse, such as nocturnal emissions, nervousness, timidity, headache, pains in the lack and limbs, with general weakness, loss of memory, hiptry to the sight, restlessness, confusion of ideas, dislike for society, and a feeling of weariness of life; with the nervous system so excitable that slight noises shock or startle the patient, making existence miserable.

For the above maladies the doctor will guarantee a cure, or ask no compensation. He can be consulted free of charge, and invites all to call as it will cost them nothing, and may be much to their advantage. Office hours, from 9 a. m., to to 9 P. M.

Remarkable Instance of Medical Relief.

CERTIFICATE.—The undersigned, desirous of acquainting those who may be unfortunate enough to be similarly afflicted, where a permanent relief of their sufferings may be obtained, feels it his duly to thus publicly express his most sincere gratitude to Dr. L. J. Czapkay, for the permanent recovery of his health. Borne down by the distressing symptoms incident to the vicous practices of uncontrollable passion in youth depressed in body and mind, unable to perform even the most triding duty imposed upon the ordinary avocations of life. I sought the advice of many physicians, who at first regarded my disease as of 'riffing importance—but alas? after a few weeks and in several instances months of their treatment. I found to my unutierable horror that instead of relief, my symptoms became more alarming in their torture, and being fold by one that my disease being, principally confined to the brain, medicine would be of little consequence, I despaired of ever regaining my health, atrength and energy; and as a last resort and with but a faint hope called upon Dr. Czapkay, who after examining my case prescribed some medicine which almost instantly relieved me of the dull pain and dizziness in my head. Encoraged by the result, I resolved to place myself under his care, and by strict obedience to all his directions and advice my head became clear, and my ideas collected, the constant pain in my back and groins, the weakness of my limbs the nervous reaction of my whole body on the slightest alarm or excitement, the misanthropy and evil forbodings, the self distrust and want of confidence in others, the incapability to study, and want of resolution, the frightful exciting and at times pleasurable dreams at night, followed by involuntary discharges, have all disappeared, and in fact, in two months after having consulted the doctor, I felt as if inspired by a new life—that life which but a short time ago I contemplated to end by my own hand. To guard the unfortunate from falling into th Remarkable Instance of Medical Relief.

State of California, County of San Fra Subscribed and sworn to before me, this seventeenth day of April, a. D. 1856.

Signed : JOHN MIDDLETON, Notary Public. [L. s.] every part of the State and from Oregon and Washington Territory for the treatment of every form of disease, and there is not one who will come forward and express diseasingation; on the contrary, the Doctor is in daily receipt of letters expressive of gratitude and thankfulness, some of which are published below by permission:

Dr. L. J Czapkay, San Francisco: Sir-I have used the last of your medicine, and do not think! I shall need any more as I feel very well, except that I have not entirely got my strength yet, but soon will with the appetite that I have—It is just three weeks you may recollect, since I called at your institute, with my constitution as I thought entirely broken, and never thought you might be able to do something to ease the pair in my back and head and strengthen my limbs, which were so weak that they would almost give way under me when I walked, and to strengthen my nerves so that I would not get excited and tremble at everything. Now that you know what I expected you may judge of my satisfaction at my complete recovery from these symitoms, and the removal of those blotches and sores from my skin, and ulcers from my throat, and the entire stopage of those emissions, which you said were principally the cause of my sickness. page of those emissions, which you said were principally the cause of my sickness.

Lean hardly tell you which is the greatest, my joy or my surprise, for except not having fully got my strength, I feel as well as any man can feel.

Enclosed I send you twenty dollars over your charge, and think myself cheaply cured. If you think anybody will be benefitted, you may put this letter in the news papers.

Believe me gratefully yours,

THOMAS HAYDEN.

STOCKTON, May 24. 1856.

Dear Sir—Having entirely recovered from my sickness, I avail myself of this opportunity to return my acknowledgements for the relief that vou have given me. When I think of the distressing bodily weakness under which I have suffered and the nervousness, headache, fearfulness, want of confidence, dizziness, restlessness, weakness in the limbs loss of memory, confusion of ideas, dislike for society, nocturnal emissions, which made my life miserable. I can hardly express my gratitude for my existence had become a burden to me, and nothing afforded me the least satisfaction. Knowing that there are many afflicted as I have been you have my permission to make use of this letter a as you think proper. Believe me gratefully yours,

To Dr. L. J. Czapkay, San Francisco. Backamento, May 15, 1885Dear Sir—Such is the thankfulness that I feel for the preservation of my health of body and mind, and I believe of my life, that I hope I will not be considered intrusive intendering my thankful acknowledgements for restoring my health and making my life a boon worth preserving when it had become a burden too great for me to bear. Victim as B was to vice that had undermined my constitution, and developed a train of nervous symptoms, such as nervous debility, headache, distressing timidity, self distrust, love of solitude, loss of memory and want of resolution, besides a loss of strength and energy, which had made my waking moments wretched and my sleep unrefreshing and was fast bringing me to the grave, but thanks to your skill I am restored to health, vigor and energy. Hoping to guide others where they may find relief, you have my permission to make this public. Gratefully yours,

To Dr. L. J. Czapkay, San Francisco.
